ter Dr. Menahan suggested that all previous rules be rescinded, the motion being carried. The physician stated that in the event of a contagion the matter could be handled properly, but at this time the board has one rule, while the parochial schools have another, it appearing to him that all children should be treated alike. The vote to rescind was unanimous. Commissioner Cullinan said that the Board of Health could under the State law order the vaccination of the children at any time.

### BOND. OF SCHOOL CONTRACTORS NOT RELEASED YET

Board of Education Conducting Special Investigation into Conditions at Bostwick Avenue School.

Those in charge of the recent addition to the Bostwick Avenue School, a part of which has been found de fective, will be asked to appear be-fore the Board of Education, at the next regular meeting, to explain. Last evening the Board took up the report of the special committee appointed by the common Council to inquire into the faulty construction of the building. Commissioner Havens stated that he, with Commissioner Brady, had visited the school while it was being con-structed. They found that where a brick wall was to have hear directly brick wall was to have been, directly over the boiler room, a wall of lathe and plaster had been substituted. Contractor Nooman and Architect O'Erien were consuited. Mr. Havens further said that the board should have been notified of any change from the original plans. For this reason the building has not as yet been ac cepted by the School committee, nor have the contractors been discharged from their bond. Commissioner Cullinan moved that

the building inspector be instructed to investigate whether or not dangerous conditions exist in the additions, as set forth by the committee appointed by the Common Council, and in the engineer's report, what deviations if any there were in the original plans, and to report his findings at the mext meeting of the board, when the archi-tect and the contractors will be invit-ed to be present. The motion was unanimously adopted.

The company will operate as a general theatrical holding company and it is said that its formation was the result of a persistent rumor that Martin Beck, the well known vaudeville promoter of the West, was about to form an alliance with William Morris, the independent agent in New York, and operate in the East. The new concern will, it is said, be prepared to invade the West if Morris starts to enter the vaudeville field in the East. Keith & Proctor head the new concern, and P. B.
